Pasig City, Metro Manila, 1606, Philippines

A dedicated and quick-learning BSIT graduate with a strong foundation in Fullstack Development. Known for my ability to deliver high-quality code across multiple languages and frameworks, I bring a strong work ethic, attention to detail, and a passion for programming to every project. Recognized as a Batch Valedictorian and Cum Laude, I am eager to apply my technical skills to challenging and innovative projects.

Work Experience

Fullstack Developer

Mar 2023 – Present

The Path (Freelance) | Pasig City

- Developed frontend and backend code for clients using their preferred languages
- Developed various projects and an e-commerce site for said clients.

Web Developer Intern

Mar 2024 – Jun 2024

Nauts & Vectors Company, Inc. (GoCommerce) | Pasig City

- Translated Figma prototypes to frontend Shopify code for the company's .COM brands, along with their other client's.
- Did various QA checks and CROs for the company's .COM brands, along with their other client's.
- Provided relevant research on possible use cases and/or customer flows to the rest of the team.

Projects

LGL Corp E-Commerce Site | Lead Fullstack Developer (Web)

Jan 2024 – Present

Technologies Used: Shopify, Shopify Liquid

- Set up all requirements and prerequisites to deploy and manage an e-commerce shop.
- Translated Figma prototypes to frontend Shopify code.
- Integrated custom Shopify apps according to client's requests.

Pasig TRMS Web and Mobile App | Fullstack Developer (Web & Mobile)

Jul 2024 – Aug 2024

Technologies Used: PHP, JavaScript, React Native, Expo

- Built the backend code using PHP and used REST to store and retrieve data to and from the database.
- Completed missing frontend pages and added UI components to accommodate for updated backend code.
- Created a React Native Mobile app implementing QR Code scanning for vehicle units.

RealtyView | Fullstack Developer (Web & Mobile)

Jun 2023 – Aug 2023

Technologies Used: PHP, TypeScript, Ionic Framework

- Built the backend code using PHP and used REST to store and retrieve data to and from the database.
- Completed missing frontend pages and added UI components to accommodate for updated backend code.

Sight | Lead Fullstack Developer (Web)

Mar 2023 – Aug 2023

Technologies Used: MongoDB, Express, React, NodeJS

- Worked across the development lifecycle to build and maintain both frontend and backend code.
- Built five (5) modules for each identified user including basic RBAC and JWT Authentication.
